- ✓ VST Agile Methodology Process

- ✓ Scrum

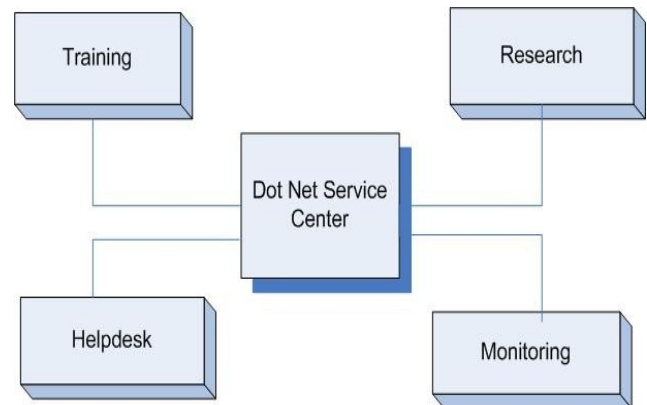

- ✓ eXtreme Programming
- ✓ Test Driven Development
- ✓ Pair Programming
- ✓ Unified Process

Test-Driven Development (TDD):

ValueSource India's DotNet team is one of the early adapters of TDD. TDD is a common Agile software development technique. TDD is actually more of a programming practice that has both specification and validation aspects, than a testing technique. With TDD, the software is specified in detail on a just-in-time (JIT) basis via executable tests that are run in a regressive manner to confirm that the system works to the developer's current understanding of what the stakeholders' requirements are.

Dot Net Service Centre

The Dot Net Service Center (SC) at ValueSource India is responsible for updating team's competence skills.

The SC provides set of services, people, Infrastructures.

SC responsibilities include

- ✓ Supporting the .NET Software Stack (Tools & Framework)

- ✓ Training on the Project methodology
- ✓ Host & monitor Development Environment for 3rd Party Projects
- ✓ Research on the technologies used by Delivery Centers for optimization
- ✓ External training programs
- ✓ Providing Internal Training for Delivery Centers
- ✓ Optimize and fine-tune the methodology for enhanced team performance

- ValueSource India is capable of applying its extensive experience obtained from earlier Application Outsourcing initiatives.
