

**Fact sheet short description**

The capabilities and the process methods followed by ValueSource India for the EGate/EAI process are highlighted in this fact Sheet

**About Us**

ValueSource India currently offers application development services to KBC group, one of the largest banking & insurance groups in Europe.

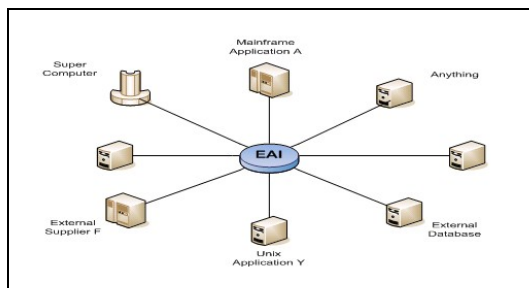

**EGATE Project Overview**

The EAI team at KBC has a huge amount of integration work to be executed for the various KBC ICT departments every year and has identified ValueSource as a potential off shoring partner.

From the first quarter of 2007 onwards, ValueSource has started providing the Enterprise Application Integration (EAI) services to KBC ICT, the EAI tool being SeeBeyond eGate Integrator.

**What is EAI?**

EAI is the technology and tools for integrating heterogeneous applications running in a variety of environments.

**Team Overview**

- o Have more than 125 man-months of SeeBeyond eGate Integrator experience
- o Building end-to-end integration based on technical design from customer
- o Working remotely on EGATE server at KBC, connected via Citrix
- o Matured processes in place to execute complex assignments
- o Working closely with the customer and client-reporting via weekly/monthly video conferences

**Service Offerings**

- o Development & testing of complete eGate integrations (ETDs, Collaborations, eWays/BoBs, etc.)
- o Development of several connectivities
  - File connectivity
  - MQ/ JMS connectivity
  - SAP connectivity
  - Databases connectivity
- o E2E review of technical designs

**Process Skill Areas**

Value-J EGATE team strictly adheres to the processes of QMS, the Quality Management System defined by ValueSource Quality Management Group.

QMS Software Development lifecycle follows the Waterfall methodology as depicted below:

**Domain Skill Areas**

- Insurance
- Banking
